

Fall 1984 Student Evaluations for CLOVICE LEWISMusic CS 6-1
Computer Technology in Music

- 1 "Clovace commands an amazing amount of varied and related knowledge. Course covered a surprising amount of material, could easily be expanded into a series-- 'The Clovice Series.' Also a great guy, fun to talk with. Course was interesting throughout. I'm glad I took this course and would gladly take it again to see some of his newest toys."
-
- 2 "Informative and interesting class. Mr. Lewis was a very exciting and refreshing instructor. He was very interested in the class also."
-
- 3 "Very enthusiastic teacher. Full of interest and energy! No complaints. I wish I could take a quarter-long course from Clovice. Personable, flexible, and organized!"
-
- 4 "A+"
-
- 5 "I came in not knowing a whole lot about either of the fields. Some of the information was beyond me and I had a tough time following. Actually, I could follow, except I wasn't sure how one specific thing related to everything. But, I feel that I can relate somewhat better to both computers and their use in music, and I have gained some knowledge if I do take any further classes."
-
- 6 "I enjoyed the class but I felt a little lost when music was discussed in detail. I must say that I learned a great deal. Thanks."
-
- 7 "I felt the subject was interesting and the instructor was well informed, but lectures of 4 straight hours was just too long."

Chrice Lewes
INSTRUCTOR NAME

Music 6C
Course Title or Area of Instruction

- 1) Very Enthusiatic & Charismatic towards subject
- 2) Excellent grasp & knowledge of subject matter
- 3) Assumes class has a firm background in subject - (causes some confusion)
- 4) Need to go a bit slower if possible due to complexity of material
- 5) More Visual + Audio Aids would be great
- 6) ~~the~~ Was good to go to actual studio -

C. Lewis
INSTRUCTOR NAME

Music 6
Course Title or Area of Instruction

Although all the material was new to me, I felt I learned a little. The instructor was very enthusiastic and appears to enjoy what he has presented over the three day seminar. His teaching was good and interesting.

Clavice A. Lewis, Jr.
INSTRUCTOR NAME

Music 6, section I
Computer technology in Music
Course Title or Area of Instruction

Mr. Lewis is a dynamic speaker, able to build a good rapport with his audience. He has an incredible knowledge of computers, electronics, and ~~how~~ music, and how these three things correlate. He does a fantastic job of making his class and lectures a learning experience.

The only drawback to having Mr. Lewis as a teacher is that he is unable to stay longer than three days; I feel like he has only scratched the surface of what he could teach us if he had more time.

Course Title or Area of Instruction
CCS ~~1111~~ ~~1111~~ Spring Quarter

Instructor knows his material.

He has a very positive attitude toward the class as a whole and for four hours that's great. The most impressive part and enjoyable part of the instruction is that the instructor gets the class involved, makes them use their imagination.

INSTRUCTOR NAME

computers & music
Course title or Area of Instruction

I'M GLAD I TOOK THIS CLASS. IT TOUCHED ON NEW IDEAS I NEVER KNEW EXISTED AS FAR AS COMPUTERS & MUSIC ARE CONCERNED. IT WAS HELPFUL TO LEARN THE TECHNICAL AS WELL AS THE PHILOSOPHICAL ASPECTS OF COMPUTERS & MUSIC. I NEVER THOUGHT ABOUT THE PROBLEMS & ADVANTAGES & DIS-ADVANTAGES OF COMPUTERIZING MUSIC. MR. LEWIS WAS VERY GOOD AS AN INSTRUCTOR BECAUSE HE WAS VERY ENTHUSIASTIC ABOUT THE SUBJECT & KNEW HOW TO RELATE THE INFO. (WELL) TO US. I'D RECOMMEND THIS CLASS TO ANYONE.

Computer Applications & Music
CS Music Seminar
Course Title or Area of Instruction

I thought it was great. I obtained a coherent overview of how a computer functions in a few short hours. He was enthusiastic, personable & knowledgeable. He made programming & the technical aspects of computers seem easy. Very interesting I wish there were more seminars like this one.

Clarence Lewis

INSTRUCTOR NAME

CS6 - Computers in Music

Course Title or Area of Instruction

I enjoyed the way we combined computers and music separately first, and then as an interrelationship. The seminar was very educational, interesting, and current. I realize that ~~the~~ class was a non-technical class, but I would have liked some very technical discussions in certain areas. Aside from this problem, the seminar was quite interesting.
